

Order	Apples	Oranges	pears	Kiwi	Fruit Total	
1	3	0	3	1	7	Apples Rule
2	2	5	6	9	22	FALSE
3	2	1	2	4	9	Apples Rule
4	6	5	5	9	25	Apples Rule
5	2	3	9	12	26	FALSE
6	2	6	4	3	15	FALSE

If each column "B" is greater than column "C" it gives Apple Rule otherwise "False".

the function I applied looks: =IF(B2>C2), Apples Rule
